Title: Guaranteeing Success in your Fixed Price Efforts (Part 3 in the Outcomes Series)

Brief description:

This webinar outlines best practices for the project management of Fixed Price contracts in Unanet. It describes how to optimize Unanet to support planning, assigning, and monitoring the work, ensuring that time spent by the Project Manager is appropriate. Key metrics provide senior leadership and the customer with confidence that the path to completion is defined and executable. Specific criteria settings for shared reports are also outlined and explained.
