*Title: 2019 Champions Conference - Plans and Assignments/Workforce Authorizations*

***Brief description:***

This session focuses on using project planning and assignments to optimize resources and maintain cost control objectives for successful projects. Whether a centralized planning or distributed planning model is used in your firm, this session will touch on ways to get the most value out of project planning in Unanet.

This session was presented at the 2019 Champions Conference (PM Foundations, Session 2).
