

# FAQ - How do I change the Unanet logo/image in the upper left hand corner?

## Question

How do I change the Unanet logo/image in the upper left hand corner?

## Solution

Changing the Unanet logo in the upper left corner in the blue menu bar is not allowed because it is part of Unanet branding.

Excerpt from the License Agreement:

**Licensee may not:**  
3.12) Take any steps to modify, replace or remove any Unanet provided source files which would remove or otherwise alter the Unanet branding or logo, except where specifically allowed via a documented feature.

You can, however, change the logo on your login page, invoices, timesheets, and reports.
